U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On JULY 11, 1976
- Export shipments in
Current Marketing Year
- Daily Sales reported
JULY 12 — 20, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of July 22, 1976 (based on reports from exporters for the week ending July 11, unless otherwise noted):

Wheat: The apparent export commitments (cumulative exports plus outstanding sales) for 1976/77 (year beginning June 1) advanced by 1.7 million metric tons (MT), of which 1.0 million MT largely reflects recently announced new sales to the USSR. Some of the other significant increases in commitments this week were to Egypt, 100,500 MT; Taiwan, 83,000 MT; and the European Community (EC), 64,600 MT. Total commitments to Egypt and the EC now stand at 376,100 MT and 799,500 MT, respectively. In addition, commitments to Venezuela increased by 53,900 MT while commitments to Israel, the Philippines, and Morocco were higher by 50,800 MT, 51,400 MT, and 44,800 MT, respectively.

Total commitments to all destinations for the year now stand at 9.2 million MT, compared with 10.0 million MT for the comparable period a year ago, i.e., year beginning June 1, 1975. Commitments to the USSR as of July 11 are ahead of commitments for the comparable period one year ago by 1.2 million MT, while total commitments to destinations other than the USSR are behind those of a year ago by 2.0 million MT.

Feedgrains: The apparent export commitment for corn for 1975/76 (year ending September 30) advanced by 608,400 MT, bringing the total commitment for the year to 41.9 million MT. Corn commitments have increased an average of almost 550,000 MT per week during the last month; if this pace should continue beyond the end of July, it would indicate that actual corn exports for the 1975/76 year might exceed the present USDA corn export estimate (excluding products) of 42.9 million MT.

Corn commitments to the EC increased this week by 497,900 MT, bringing the total for the year to 10.2 million MT. EC corn commitments have now jumped 1.6 million MT in the last four weeks. This reflects the deterioration in crop prospects and available feed supplies due to current drought conditions in the EC. Some of the other increases in commitments were to Czechoslovakia, 50,000 MT; Egypt, 50,000 MT; and unknown destinations, 68,500 MT. These increases were partially offset by a decline in corn commitments to the USSR of 154,700 MT, resulting from corrections of prior reporting errors.

Sorghum commitments advanced by 101,700 MT, largely on the basis of increased commitments to Venezuela, Poland, and unknown destinations. Sorghum commitments for the year now total 5.2 million MT, about 300,000 MT below commitments for the corresponding period a year ago.

Outstanding sales of corn and sorghum for 1976/77 shipment (year beginning October 1) increased by 1.1 million MT and 101,400 MT, respectively. Recently announced new sales of corn to the USSR accounted for about 75 percent of this week's increase. Corn commitments to the USSR now total 2.45 million MT, accounting for about one-third of the total commitment to all destinations. Sorghum sales for 1976/77 shipment now total 423,000 MT, of which sales to Japan account for about 60 percent.

Rice: The apparent export commitment for 1975/76 (year ending ^{July} Aug. 31) increased by 41,800 MT, largely reflecting higher commitments to Indonesia. Rice commitments for the year now total 1.8 million MT, compared with 2.4 million MT for the corresponding period a year ago. Outstanding sales of rice for 1976/77 shipment (year beginning ^{Aug.} Sept. 1) now total 68,900 MT. Sales to Indonesia and Canada account for approximately 75 percent of the total.

Soybeans: The apparent export commitment for 1975/76 increased 266,500 MT, with approximately half of this increase primarily reflecting larger commitments to Japan, West Germany, the United Kingdom, and the Netherlands. Commitments to unknown destinations increased by 129,400 MT. This week's increase in commitments was substantially above the previous week's increase of only 20,100 MT.

Exports during the week totaled 237,500 MT, with shipments primarily to Japan (90,000 MT), the United Kingdom (40,000 MT), Romania (33,900 MT), France (21,200 MT), the Netherlands (19,900 MT), and Italy (6,000 MT).

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased 78,000 MT, primarily reflecting larger commitments to the Netherlands, France, Japan, Egypt, Canada, and the Dominican Republic. Exports during the week totaled 64,600 MT, primarily to France (10,600 MT), Poland (11,600 MT), West Germany (9,700 MT), Japan (8,200 MT), Venezuela (9,800 MT), the Netherlands (6,700 MT), and Canada (5,700 MT).

Soybean and Cottonseed Oils: The annual unadjusted rate of soybean oil exports is now 408,000 MT, which is in line with the USDA estimate.

In an effort to ease pressure on domestic vegetable oil prices, India will abolish import duties on rapeseed oil and palm oil (30 percent) and soybean oil (15 percent) effective August 1, 1976. In addition, since July 15, 1976, India has required the vanaspati industry to use 50 percent imported oils. This is expected to result in imports of vegetable oil approximating 20,000 MT monthly.

Cotton: Sales for next marketing year continued at a high level, while sales for the current season have nearly come to a standstill. The net export commitment for 1976/77 delivery increased 105,000 running bales (RB), while the net commitment for the current season increased only 6,000 RB. Canada and Japan were the largest purchasers.

Continued brisk sales of U.S. cotton for future delivery in the face of higher prices stands in contrast to the seasonally slow tone of the international market. This reflects the willingness on the part of U.S. sellers to forward contract.

Office of the General Sales Manager

^{1/} In the July 15, 1976 publication, the graph for corn showing Accumulated Exports and Outstanding Sales for market year 1975/76 as of June 1976, shows the USDA Export Projections at the end of June incorrectly. The above graph shows the correct USDA Export Projection for corn at the end of June 1976.
